

NutriFUZE

RTRx PLUS

A blend of chelated
micronutrients

RTRx Plus is a formulation of essential micronutrients powered by a product known as SureTrex. The combination of micronutrients and SureTrex improves plant nutrient uptake and promotes plant growth. It is designed for foliar applications to prevent and correct most micronutrient deficiencies and to optimize plant health, plant nutrient uptake and promote growth when used as directed. Maintaining proper levels of micronutrients usually results in increased plant vigor, better yields, as well as more desirable quality, size and shelf life. Healthy plants have shown increased resistance to stress caused by excessive dry or wet weather and temperature extremes.

RTRx Plus is believed to be compatible with most agricultural foliar nutritionals, spray adjuvants, fungicides and insecticides. The physical compatibility with other products is unknown. Use a jar compatibility test.

Manufactured by:
Diamond R Fertilizer Co., Inc.

Combined Sulfur	4.00%

Derived from: Manganese Sulfate, Zinc Sulfate, Copper Sulfate, Iron Sulfate, Sodium Glucoheptanate, Sodium Borate, Sodium Molybdate and SureTrex. SureTrex contains protein hydrolysate obtained from hydrolysis of protein to amino acids and short polypeptides that are a source of nitrogen. SureTrex is only for use as an ingredient in products formulated for use on plants and seeds.

DIRECTIONS FOR USE

Citrus: For use as a Foliar Application: Ground Spray Equipment-Use 2 quarts/1.89 liters to 4 quarts/3.78 liters of RTRx Plus per acre in a minimum of 20 gallons/75.7 liters of water per acre. **Aerial Application:** apply 2 quarts/1.89 liters to 4 quarts/3.78 liters of RTRx Plus in at least 5 gallons/18.92 liters of water per acre or as recommended by your Diamond R Representative. **Low Volume Application:** Use 1-2 quarts in 1 to 3 ground per acre, not to exceed 25% total sprayed gallons. The above rates are average. Conditions may dictate higher than above stated rates. Contact your Diamond R Representative.

Sod & Turf: Use 2 quarts/1.89 liters to 4 quarts/3.78 liters of RTRx Plus per 100 gallons/378.54 liters of water, or as recommended by your Diamond R Representative.

Ornamentals: Foliar Application: Use 2 quarts/1.89 liters to 4 quarts/3.78 liters of RTRx Plus per 100 gallons/378.54 liters of water every 14 to 21 days or as recommended by your Diamond R Representative. **Drip Irrigation Application:** Apply 1 quart/.94 liters per acres of RTRx Plus on a 7 to 10 day application

cycle or as recommended by your Diamond R Representative.

Fruits & Vegetables: Foliar Application: Apply 2 quarts/1.89 liters to 4 quarts/3.78 liters per acre of RTRx Plus beginning two weeks after transplants and continue on a 14 day interval or as recommended by your Diamond R Representative. **Drip Irrigation Application:** Apply 1 quart/.94 liters per acre RTRx Plus 7 to 14 days after transplant or emergence and continue on a 7 to 14 day application cycle or as recommended by your Diamond R Representative.

FIRST AID: Eyes: Flush with plenty of water. Get medical attention if irritation persists.

Skin: Wash with plenty of soap and water.
