USE AND DOSE

Nursery and Landscape Ornamentals:
1 or 2 tablets per plant as determined by plant size.

Horticulture under Greenhouse: 1 tablet per plant

New Vineyards: 2 tablets per plant

Fruit Trees: 2 tablets per plant

Vegetable and Garden Plants: 1 tablet per plant

To improve fungal colonization, place tablets in close contact with roots. NutriFUZE tablets will not burn roots. Please note, the application of fungicides and chemical phosphate fertilizers may slow the development of mycorrhizae. Store unused tablets in this container. Keep in a cool and ventilated area away from direct sunlight, at or below room temperature.

NutriFUZE
Transplant Tablet

12-8-4 Starter Fertilizer Tablets
Enhanced with Beneficial Microbials

For a Healthy Root System and
More Vigorous Plant Growth

Mycorrhizae and Trichoderma are beneficial microbials that colonize the root system for increased root growth, nutrient absorption, and heartier plants.
