

NutriFUZE Microbial Blend formulated for blending with soil mediums for enhanced root growth and protection.

Mycorrhizae and Trichoderma are beneficial microbials that colonize the root system for increased root growth, nutrient absorption, and heartier plants.

GUARANTEED ANALYSIS

CONTAINS NON PLANT FOOD INGREDIENTS

Mycorrhizae (Glomus spp.).....	300 spores/g
Glomus mosseae.....	150 spores/g
Glomus intraradices.....	150 spores/g
Organic Matter.....	56%
Trichoderma atroviride.....	2x10 ⁸ CFU/g

Does not contain genetically modified or pathogenic organisms

USE

Soil: Thoroughly blend 1 lb. per 3 cubic yards of soil

Planting: Apply in hole just prior to planting root ball

Greenhouse: lightly dust roots or dip small rooted plants and cuttings just prior to transplanting

Existing trees and landscape plants: Sprinkle around base of plant and water to ensure contact with root system.

NutriFUZE Microbial Blend is compatible with most common fertilizers, herbicides and some fungicides. Store in a cool, dry, well ventilated area away from direct sunlight or high temperatures. NutriFUZE Microbial Blend is not water soluble. Avoid applying via sprayer or liquid injection equipment.

Warning: contains Trichoderma atroviride. In case of contact with eyes, rinse immediately and seek medical attention. Keep out of reach of children. Information regarding the contents and levels of metals in this product is available at <http://bit.ly/italpollinaUSMetalsStatement>. MJ-082218
